## BIOSTRIP II

### BIODEGRADABLE CLEANER

**ARROCHEM'S Biostrip II** is a high-tech biodegradable stripper based on natural products. It is designed to strip synthetic polymer coatings and adhesives like epoxies and urethanes films, from metal surfaces without the offensive odor. This environmentally friendly cleaner does not contain any hazardous materials and is supplied in its most concentrated form. Biostrip II also contains certain cyclic amines, which react and neutralize any free isocyanates or acid chlorides that may be present in small amounts.

#### General Characteristics:

Appearance:	Clear liquid
Chemical Composition:	5-methyl-3- (1-methylethenyl)-cyclohexene
Ionic Nature:	Nonionic
Solubility in Water, 25°C:	Not soluble
PH, 1-% solution:	7
Wetting:	None
Foaming Nature:	Low Foam
Phosphate Content:	None
Viscosity:	100 cps (25C, 1 atm)

#### Application:

Spray or brush solution undiluted onto part to be cleaned. Wait until material softens and either pressure wash or wipe off with wire brush. Stripping capacity depends on thickness of coating and characteristics of coating.
