CITRUS MASTIC REMOVER

BIODEGRADABLE CITRUS CLEANER

ARROCHEM'S CITRUS MASTIC REMOVER effectively removes black mastic from concrete and wood floors. It is also an excellent adhesive and glue remover for non-painted surfaces. Citrus Mastic Remover does not contain alkaline chemicals and chlorinated or halogenated solvents that irritate the skin. Citrus Mastic Remover is made with 80% natural orange oil which is significantly more than most competitors and is non-toxic and biodegradable.

General Characteristics:

| | |
|----------------------------|--------------------------|
| Appearance: | Orange Translucent Fluid |
| Odor: | Citrus |
| Solubility in Water, 25°C: | Dispersible |
| pH, 1% Solution: | 6.3 |
| Activity: | 85-90% |
| Phosphate Content: | None |
| Foaming Nature: | Negligible |
| Viscosity: | 20-40 cps (25C, 1 atm) |

Application: Spray or Mop Citrus Mastic Remover over mastic or adhesive to be removed allowing product to saturate the area. Allow to soak 15 to 30 minutes until mastic is softened. Using a stiff broom, squeegee, or metal scraper manually dislodge the mastic material. Thoroughly rinse treated area upon completion of removal. Repeat if necessary. Dispose of all waste in accordance with federal, state, or local regulations.
