ENZYME DRAIN CLEANER

BIODEGRADABLE

ArroChem's Enzyme Drain Cleaner is a nonhazardous industrial strength formula developed to dissolve biomass, dirt, grease in the toughest drains. The concentrated formula has added enzymes that attacks & destroys grease and fats as well as removes rust and corrosion from metal. It has excellent anti-redeposition properties.

General Characteristics:

Appearance:	Blue Turquoise Powder
Phosphate Content:	0%
Solubility in Water:	Readily Dispersible
Lbs. / Gal.	6.40
pH, 10% Solution:	6.0 – 8.0
Foaming Nature:	Medium

Application:

For best results pour powder into drain and wait approximately 15 minutes for the clog to dissolve. Once drain is free, rinse with water. Small frequent doses are recommended for preventative maintenance of problem drains.
