INDUSTRIAL ENZYME CLEANER & DEGREASER

ARROCHEM'S INDUSTRIAL ENZYME CLEANER & DEGREASER has been specifically developed to facilitate the removal of ink, dirt, grease, and foreign matter from surfaces, machinery, grease traps, and stained surfaces. It is harmless to pipes and traps. It does not damage biological treatment systems, as do high caustic or acid cleaners. The enzymes in INDUSTRIAL ENZYME CLEANER & DEGREASER helps reactivate septic as well as Aerobic treatment systems and helps stabilize the pH problem these systems might have by oxidizing organic acids. It is catalytic in nature and continues to workdays after initial use. This unique enzyme system present in INDUSTRIAL ENZYME CLEANER & DEGREASER includes microbial production units, which can start multiplying and produce more digestive enzymes. Non-Caustic and non-toxic to pets and fish for increased safety. It is environmentally safe, containing biodegradable components and naturally occurring bacteria that cause no problem with residual toxicity in the environment. Cleaner contains no harmful solvents and does not accumulate in ground water aquifers.

General Characteristics:

Appearance:	Clear liquid
Chemical Composition:	Enzymes
Ionic Nature:	Nonionic
Solubility in Water, 25°C:	Soluble
pH, 1-% solution:	6
Wetting:	Good
Foaming Nature:	Medium Foam
Phosphate Content:	None
Viscosity:	100 cps (25°C, 1 atm)

Application:

CONCRETE: Use full strength or dilute up to 5 to 1 with water as needed. Spray, wait 15-20 minutes. Brush with a stiff broom or pressure wash for maximum effect.

FLOOR CLEANING: Use 4 oz. per gallon in an automatic floor scrubber

CARPET- SPOT CLEANING: Vacuum carpet first, spray on INDUSTRIAL ENZYME CLEANER & DEGREASER, scrub lightly in a circular motion to accelerated enzymes, allow to dry, then vacuum. Apply in multiple applications for removing tough stains or odors until they are removed.

CARPET- STEAM CLEANING: Vacuum carpet first. Dilute INDUSTRIAL ENZYME CLEANER & DEGREASER 5 to 1 with water for use in steam cleaning equipment. Apply and wet-vac excess moisture from carpet, allow to dry. Always test first in an inconspicuous area.

LAUNDRY: Pre-treat laundry by spraying directly onto soiled are immediately before washing. Wash as normal. Safe for most fabrics.

DEODORIZE: In bathrooms, dilute 2-4 oz. per gallon of water. Spray on floors or walls. Mop or clean as usual as an effective alternate to harsh or abrasive cleaners.

KEEP OUT OF CHILDREN. FOR INDUSTRIAL USE ONLY.

*As conditions vary, all dosages and guidelines are merely suggested starting points; it is recommended the user determine the proper operating conditions for his/her system
