INDUSTRIAL OVEN CLEANER

ARROCHEM'S Industrial Oven Cleaner is a powerful caustic professional oven cleaner.

General

Appearance:	Clear Light Brown Liquid
Solubility in Water, 25C:	Soluble
Chemical Composition:	Alkaline Cleaner
pH, 1-% solution:	12.5-13.5
Foaming Nature:	Low
Viscosity:	20-40 cps (25C, 1 atm)

Application:

Use as supplied for cleaning warm and cold ovens. Spray on and wipe off or use as an overnight soak. Wear rubber gloves to avoid skin contact. Use on empty oven, either cold or pre-heated 200F. Always turn oven off prior to use. Place newspaper under the oven door to protect the floor. Keep spray drippings away from pilot lights, electrical connections, switches, receptacles, thermostats, heating elements, light bulbs, and other surfaces that may be harmed by caustic cleaner. Avoid contact with painted or varnished surfaces, clothing, floor tile, linoleum, plastics, chrome, copper, aluminum, and copper-tone surfaces. For Professional Use Only.

*As conditions vary, all dosages and guidelines are merely suggested starting points; it is recommended the user determine the proper operating conditions for his/her system.
