SAFETY ADHESIVE REMOVER GEL

ARROCHEM'S Safety Adhesive Remover Gel is a gel-based solvent solution that rapidly removes adhesives from surfaces. It can also be used as an ink, paint, and marker remover. Gel Remover is fast evaporating and does not leave an oily residue

General Characteristics:

Appearance:	Light Colored Liquid
Chemical Composition:	Surfactant/Solvent Blend
Solubility in Water, 25C:	Soluble
PH, 1-% solution:	6-8
Foaming Nature:	High

Application:

Apply Safety Adhesive Remover Gel to surface to be cleaned. Necessary dwell time varies based on type and thickness of adhesive. Adhesive can often be removed almost immediately after application with a brush or by spraying with a conventional hose or pressure washer. Repeat process if necessary. Rinse surface thoroughly with water after cleaning.

*As conditions vary, all dosages and guidelines are merely suggested starting points; it is recommended the user determine the proper operating conditions for his/her system.
