TANK AND LINE CLEANER

Scale Remover

ARROCHEM'S Tank and Line Cleaner facilitates in the removal of scale and grease from metal surfaces. Because it lowers the pH, it loosens scale by hydrolyzing the dirt and calcium scale. Wetting agents in the blend help keep the material from redepositing. Corrosion inhibitors help keep the metal surfaces from rusting.

General

Appearance:	Clear liquid
Solubility in Water, 25C:	Readily Dispersible
Chemical Composition:	Sulfonic Amide
Ionic Nature:	Anionic
pH, 1-% solution:	1.5 ± 0.5
Wetting:	Good
Foaming Nature:	Low
Phosphate Content:	None
Viscosity:	<100 cps (25C, 1 atm)

Application:

ArroChem's Tank and Line Cleaner is an economical cleaner. Recommended dilution is 25 gallons per 100 gallons of water at 170F. Allow the solution to circulate for 4 hours or until the scale is removed. Proper usage and dilution ratio depend upon the amount and type of scale present. This product is not effective for removing polymer scale. As product is water-based, it should not be used at temperatures above 85C (195F) or below 5C (40F).

*As conditions vary, all dosages and guidelines are merely suggested starting points; it is recommended the user determine the proper operating conditions for his/her system.
