## VIBRATORY CLEANER

### PARTS CLEANER

ARROCHEM'S VIBRATORY CLEANER is specifically developed for use in vibratory parts washers to facilitate in the removal of various types of dirt, grease, oxidation, and carbon buildup from carbon steel, and stainless steel. Vibratory Cleaner has exceptional foaming properties that produce clean and shiny parts. It contains a built-in rust inhibitor to help protect metal from flash rusting. Vibratory Cleaner also contains a highly effective rinse aid to help remove grease and oil deposits that are often left behind by conventional parts cleaners.

#### General Characteristics:

Chemical Composition:	Organic Acid Solution
Ionic Nature:	Cationic
Appearance:	Clear Liquid
Solubility in Water, 25C:	Complete
Phosphate Content:	0%
pH, 1% solution:	1.0-2.0
Wetting:	Rapid
Foaming Nature:	Moderate

#### Application: \*

Vibratory Cleaner may be used as supplied or reduced as needed dependent upon the degree of soil removal required.

1. Add four (4) cups of cleaner to the bowl.
2. Allow parts to clean for 20-30 minutes at ambient temperature.
3. If the foam starts to diminish, add more cleaner to maintain initial foam height.
4. Blow off parts with air or dry as normal.

\*As conditions vary, all dosages and guidelines are merely suggested starting points; it is recommended the user determine the proper operating conditions for his/her system.
