NEUTRAL CLEANER

ARROCHEM'S Neutral Cleaner is a concentrated all-purpose cleaner with a true neutral pH, thus considered non-hazardous. Cleaner does not affect materials such as synthetic rubber, plastic, chrome, steel, and ceramic because it contains no ammonia or other inorganic components such as hydroxides, silicates, phosphates, silicone's, or bicarbonates. It is non-toxic as well as non-flammable. It also contains a rust inhibitor for delicate care of unprotected metal.

General

Appearance:	Amber Translucent Liquid
Chemical Composition:	Surfactant Solution
Solubility in Water, 25°C:	Readily Dispersible
pH, 1-% solution:	8.0 +/- 0.5
Wetting:	Rapid
Foaming Nature:	Low to Medium
Viscosity:	50 +/- 20 cps (25°C, 1 atm)

Application:

ArroChem recommends the use of 2 ounces product per gallon of water. This dilution is effective daily all-purpose cleaning. Increase dilution to 6 ounces Neutral Cleaner per gallon of water for painted surfaces, shower stalls, stainless steel equipment, flues, conveyers, and mild stains. Dilution strength should be increased to 16 ounces (1 pint) of Neutral Cleaner per gallon of water for tougher applications such as grease, concrete, printing equipment, motors, air conditioners, welding equipment, etc. Extremely difficult stains may require the use of product as received. As product is water-based, it should not be used at temperatures above 85C (185F) or below 5C (40F).

*As conditions vary, all dosages and guidelines are merely suggested starting points; it is recommended the user determine the proper operating conditions for his/her system.
