CONCRETE CLEANER CONCENTRATE

ArroChem's Concrete Cleaner Concentrate was specifically designed to facilitate in the removal of dirt, grease, and stains from concrete floors. It raises the pH to loosen dirt for better stripping and cleaning. After a neutralizing rinse, there will be no adverse residue in or on the concrete. It needs no extra detergent additives and it is easily rinsed because of the added water softener.

General Characteristics:

Appearance:	White Granular Powder
Solubility in Water, 25C:	Readily Dispersible
Ionic Nature:	Anionic
pH, 1% solution:	12.2

Application

Concrete Cleaner Concentrate is an economical cleaner due to its concentrated strength. It is diluted by placing two to five pounds of concentrate into ten gallons of water for loosening dirt and stripping grease. Increase or decrease the dilution ratio depending on the amount of dirt to be cleaned. As product is water-based, it should not be used at temperatures above 85C (185F) or below 5C (40F).

*As conditions vary, all dosages and guidelines are merely suggested starting points; it is recommended the user determine the proper operating conditions for his/her system.
