## DETAILER CLEANER

**ARROCHEM'S Detailer Cleaner** is a nonionic silicone emulsion developed to condition and brighten leather, vinyl, acrylic, PVC, and rubber surfaces. Renew II Silicone Protectant safely penetrates surfaces to restore a natural shiny surface. It can be used on automobile tires as well as dashboards and convertible tops. Rejuvenation is not recommended for use on twill blends or cloth convertible tops. It is water based, it is non-flammable, which lends it to substitution for flammable silicone oils. It is readily soluble in water and contains no hazardous ingredients.

### General Characteristics:

Appearance:	White Opaque Emulsion
Chemical Composition:	Silicone Emulsion
Ionic Nature:	Nonionic
Solubility in Water, 25C:	Readily Dispersible
Specific Gravity:	1.022 g/ml
Viscosity:	35 cps (25C, 1 atm)
pH, 1% solution:	6.8 ± 0.5

### APPLICATION:

Detailer Cleaner should be used at full strength for optimal lubricity. It may be diluted with water as necessary, depending on the application & contains a preservative which is designed to inhibit bacterial growth for 6-9 months. As product is water-based, it should not be used at temperatures above 85C(185F) or below 5C (40F).

\*As conditions vary, all dosages and guidelines are merely suggested starting points; it is recommended the user determine the proper operating conditions for his/her system.
