FLEXO POWDER CLEANER YELLOW

POWDERED ROLL CLEANER

ARROCHEM'S FLEXO POWDER CLEANER YELLOW is a phosphate containing product that facilitates in the removal of various types of ink and dye from rollers, plates, and other printing equipment. Cleaner exhibits excellent performance for diluting, emulsifying, and solubilizing dyes, inks, and pigments to facilitate the removal of dried or fluid plating inks quickly and completely.

FLEXO POWDER CLEANER YELLOW contains a lubricant and a rust inhibitor to safely protect parts and machinery. Furthermore, it will not affect protective coatings used on printing rollers or their substrates. Concentrated formula is diluted with water for typical cleaning, allowing the user to determine the necessary strength for effective cleaning. As supplied, FLEXO POWDER CLEANER YELLOW does not contain any Hazardous Air Pollutants HAP's or Volatile Organic Compounds VOC's.

General

Appearance:	Yellow Powder
Chemical Composition:	Sodium Salt Blend
Ionic Nature:	Anionic/Nonionic Blend
Solubility in Water, 25C:	Dispersible
pH, 1% solution:	12.0-13.5
Wetting:	Rapid
Foaming Nature:	Low to Medium

Application:

FLEXO POWDER CLEANER is recommended for normal print-surface cleaning at dilutions of 4 oz. (one packet) with warm or hot water to make a five-gallon solution. Product can be concentrated for tough cleaning, if necessary, at double strength. Powder should be mixed thoroughly until dissolved. Application should be at room temperature by soaking or coating surface with FLEXO POWDER CLEANER YELLOW solution, followed by cold water rinse to flush the surface free of cleaning solution.

*As conditions vary, all dosages and guidelines are merely suggested starting points; it is recommended the user determine the proper operating conditions for his/her system
