UNIVERSAL WASH

PRESS WASH

ARROCHEM'S Universal Wash cleans oil-based, soy-based, and UV inks from printing rollers, blankets, and other printing equipment. It can be used as a single wash for multiple press types. Universal Wash does not contain any aromatic components or other harsh chemicals that can damage rubber and it does not swell most types of rollers. It fully evaporates from rollers without leaving an oily residue behind. According to the 40 CFR 51.100 and North Carolina Photochemically Reactive Organic Compound list, it can also be used as a low VOC wash.

General Characteristics:

Appearance:	Colorless Clear Fluid
Chemical Composition:	Aliphatic Solvents
Solubility in Water, 25C:	Not Soluble
Odor:	Mild
pH, 1% solution:	Not Applicable
Foaming Nature:	None
VOC's:	5%

APPLICATION:

Universal Wash can safely be used in automatic wash up systems. For manual application, apply it with a rag or squirt bottle on to the equipment that needs cleaning. For rollers, allow rollers to turn to provide quicker evaporation.

*As conditions vary, all dosages and guidelines are merely suggested starting points; it is recommended the user determine the proper operating conditions for his/her system.
