ETHANOL 200 PROOF

ArroChem's Ethanol 200 Proof, also known as absolute ethanol, is a high-purity alcohol product with a concentration of 100% by volume (v/v). It is manufactured through a distillation process to remove impurities, resulting in a colorless, clear liquid. Ethanol 200 Proof is commonly used in various industries, including laboratory applications, manufacturing, and as a solvent in different processes.

General Characteristics:

| | |
|----------------------------|---|
| Appearance: | Colorless, clear liquid |
| Solubility in Water, 25°C: | Completely soluble |
| Flash Point: | ~13°C (55°F) (closed cup) |
| Specific Gravity: | ~0.789 g/cm ³ at 20°C (68°F) |

APPLICATION:

Ethanol 200 Proof finds diverse applications across different industries, including but not limited to the following:

- **Laboratory Applications:** Widely used in laboratories as a reagent, solvent, and cleaning agent for various analytical procedures.
- **Industrial Manufacturing:** Employed in the production of alcoholic beverages, cleaning products, and chemical formulations.
- **Biofuel:** Used as a renewable fuel source for ethanol-based biofuels.
