GLYCOL ETHER PM ACETATE

ArroChem's Glycol Ether PM Acetate is a colorless, clear liquid with a mild, pleasant odor. It is an acetate ester of propylene glycol monomethyl ether (PM) and is widely used as a solvent in various industrial and commercial applications. Glycol Ether PM Acetate exhibits excellent solvency, low volatility, and good compatibility with a wide range of resins and coatings.

General Characteristics:

Appearance:	Clear, colorless liquid
Ionic Nature:	Non-ionic
Solubility in Water, 25°C:	Insoluble
Flash Point:	~ 80°C (closed cup)
Specific Gravity:	0.945 - 0.955 g/cm ³ at 20°C

APPLICATION:

Glycol Ether PM Acetate finds a wide range of applications in various industries, including:

- **Coatings and Paints:** Used as a solvent in paints, coatings, and varnishes to improve flow, leveling, and film formation properties.
- **Printing Inks:** Included in ink formulations as a solvent for various resins, pigments, and dyes to enhance ink performance.
- **Adhesives and Sealants:** Utilized as a solvent in adhesive and sealant formulations to improve tack and bonding characteristics.
- **Cleaners and Degreasers:** Used in industrial and household cleaners and degreasers due to its excellent solvency power.
- **Chemical Manufacturing:** Serves as a reaction medium and solvent in various chemical processes.
