GLYCOL ETHER EB

ArroChem's Glycol Ether EB, also known as 2-Butoxyethanol, is a clear, colorless liquid with a mild, pleasant odor. It belongs to the glycol ether family and is widely used as a solvent in various industrial applications. The chemical formula of Glycol Ether EB is $C_6H_{14}O_2$ (Ethylene Glycol Butyl Ether).

General Characteristics:

Appearance:	Clear, colorless liquid
Solubility in Water, 25°C:	Partially soluble
Flash Point:	39°C (102°F) (closed cup)
Specific Gravity:	~0.904 g/cm ³ at 20°C

APPLICATION:

Glycol Ether EB finds versatile applications across various industries, including but not limited to the following:

- **Coatings and Paints:** As a solvent for lacquers, varnishes, paints, and coatings, offering excellent solvency for resins and pigments.
- **Printing Inks:** Used in the formulation of flexographic, gravure, and screen printing inks.
- **Cleaning Agents:** Employed as an effective cleaning agent for industrial and household applications.
- **Adhesives:** As a solvent in the formulation of adhesives, providing good bonding properties.
- **Chemical Processes:** Utilized as a reaction solvent and diluent in various chemical processes.
