## PINE OIL DSR

ArroChem's Pine Oil DSR is a natural, biodegradable, and eco-friendly essential oil derived from pine trees. It is a pale yellow to light amber liquid with a pleasant pine aroma. Pine Oil DSR is known for its versatile properties and is widely used in various industrial and household applications.

### General Characteristics:

|                            |   |
|----------------------------|---|
| Appearance:                | Pale yellow to light amber liquid   |
| Chemical Composition:      | Pine Oil DSR is primarily composed of terpene compounds obtained from pine trees. |
| Ionic Nature:              | Non-ionic   |
| Solubility in Water, 25°C: | Partially soluble in water  |
| Specific Gravity:          | ~0.850 - 0.880 g/cm <sup>3</sup>  |

### APPLICATION:

Pine Oil DSR finds applications in various industries, including:

- **Cleaning and Disinfection:** Used as a natural cleaning agent and disinfectant in household and industrial cleaning products.
- **Aromatherapy:** Employed in aromatherapy and wellness products for its calming and refreshing scent.
- **Solvent:** Serves as a solvent in certain formulations for paint, varnish, and adhesive products.
- **Flavoring Agent:** Used in the food and beverage industry as a natural flavoring agent.
